Membership: 2023: 31 paying members

Membership: 50 kr per term for THS members and 150 kr for others.

Meetings: Annual meeting in February

Economy: Refer to the attached financial statement for 2023

## **Training**

We have held training at least once a week during our spring and autumn term. We have usually started from KTH Hallen, where we have had the opportunity to use the dressing rooms & showers for a fee.

During the spring we managed to participate in some weekly orienteering events around the Stockholm area, lika Luffarligan. Most of our active members did really appreciate these weekend activities to get a way into the sport of orienteering. We also went skiing together at Täby Konstsnöspår, which was a very popular event as well.

For the fall, we have continued to organize trainings with variety of location and activity. Mostly running activities such as intervals, running strength, or orienteering from KTH-Hallen, and occasionally orienteering trainings in other parts around Stockholm.

## **Arrangement**

We have adhered to the usual classic arrangements this year.

- This year's Lusselöpet was arranged in the middle of December and started off with an orienteering game. After the game, we continued to the sauna, followed by a Christmas fika. It was a great way to end the semester, and was arranged the coosy surroundings of Hellasgården.
- We arranged an activity for the international reception in the beginning of spring and fall. For this event we arranged an introduction to orienteering on Campus with some fika after. We see that many are enthusiastic and curious about what orienteering is.
- ÖL-OL was postponed and will hopefully be arranged during spring instead.

## **Competition**

- During the Autumn we participated in the competition Pampas Night which is an orienteering competition in the form of a team sprint. We organized one team of 12 people who all enjoyed the event. After the event we enjoyed some glögg and fika together.
- Participation in NSM in Trondheim in Norway. A group of 8 motivated participants went to represent our team there in a very appreciated competition.
